

# WHERE SHOULD AN ICE QUEEN GO WHEN THERE IS NO ICE?

Well, Charlotte of the Hippodrome Went to Delaware Water Gap and This Is the Photographic Record of Her Vacation

Charlotte is an intensely active young person and she is as expert and graceful on the tennis court as on the ice.

Like every thorough sportswoman, Charlotte loves a horse, and many a long ride she had over the Pennsylvania hills.

She is just as much at home in the water as she is on its congealed surface. Even her dog has perfect confidence in her.

Then there were long hours of dreaming. Of what? But who should seek to delve into the mind of a maid?

The motor boat, especially on the quiet waters of the Delaware, was rather a concession to Charlotte's mother.
